Sort by relevance | Sort by date (new first) | Sort by date (old first)

Managing **failover** of J2EE compliant middleware in a high availability system
US Pat. 7246256 - Filed Jan 20, 2004 - International Business Machines Corporation
In addition, the **heartbeat monitor** detects failures in the nodes and controls **failover** from one node to the other. Initially, in the primary node, ...

System and method for fibrechannel fail-over through port spoofing
US Pat. 6715098 - Filed Oct 23, 2001 - FalconStor, Inc.
A "**heartbeat**" system is disclosed with more specificity ... It is also possible that the health **monitor** can also function from standby FC adapter 517 along ...

[APPLICATION] MANAGING **FAILOVER** OF J2EE COMPLIANT MIDDLEWARE IN A HIGH AVAILABILITY SYSTEM
US Pat. 11736685 - Filed Apr 18, 2007 - INTERNATIONAL BUSINESS MACHINES CORPORATION
In addition, the **heartbeat monitor** detects failures in the nodes and controls **failover** from one node to the other. [0019] Initially, in the primary node, ...

Server fail-over system
US Pat. 6145089 - Filed Nov 10, 1997 - Legato Systems, Inc.
The role manager 410 receives a **heartbeat** from **heartbeat** networks 380, ... The kernel 500 also uses the **heartbeat** to **monitor** members of the service groups ...

High availability networking with quad trunking **failover**
US Pat. 6732186 - Filed Jun 2, 2000 - Sun Microsystems, Inc.
In one embodiment, **failover** mechanism 410A is configured to **monitor** primary connection 450 by utilizing a **heartbeat** 460. **Failover** mechanism 410A monitors ...

Functional fail-over apparatus and method of operation thereof
US Pat. 6934880 - Filed Nov 21, 2001 - Exanet, Inc.
The **failover** operating method comprises executing a process on the first network node, and executing a first **monitor** on a second network node. ...

High availability networking with virtual IP address **failover**
US Pat. 6718383 - Filed Jun 2, 2000 - Sun Microsystems, Inc.
In one embodiment, **failover** mechanism 410A is configured to **monitor** primary connection 450 by utilizing a **heartbeat** 460. **Failover** mechanism 410A monitors

...

High availability networking with warm standby interface **failover**

US Pat. 6728780 - Filed Jun 2, 2000 - Sun Microsystems, Inc.

In a similar manner, **failover** mechanism 410B may be configured to **monitor** primary connection 450 by monitoring **heartbeat** 460. **Failover** mechanism may be

...

High availability networking with alternate pathing **failover**

US Pat. 6763479 - Filed Jun 2, 2000 - Sun Microsystems, Inc.

In one embodiment, **failover** mechanism 410A is configured to **monitor** primary connection 450 by utilizing a **heartbeat** 460. **Failover** mechanism 410A monitors

...

Remote enterprise management of high availability systems

US Pat. 6996502 - Filed Jan 20, 2004 - International Business Machines Corporation

Advantageously, as will be further described, when the **failover** to standby **...**

In particular, while **heartbeat** tool 402 and mon 406 **monitor** the status of **...**
